

Dear Parents and Friends of St Mary MacKillop Primary School.

A SPECIAL GIFT FOR YOUR CHILD

Looking for the perfect gift to give your child? Look no further, for you already have this perfect gift within your power: a happy childhood is one of the best gifts that adults have in their power to bestow upon their children. If we make a child happy today, we will make the child happy twenty years on by the memory of it.

Happiness isn't something that you can give all wrapped up like a present. If we were to show-er our children with gifts of toys or shield them from emotional discomfort, they are more likely to grow into adulthood as people who are bored and joyless. The best gifts for happiness are internal not external, an inner set of tools they can rely on for life.

There is no way that parents can make children happy all the time. Children need to learn how to deal with some distress and to figure out how to cope with it. Learning how to deal with life's frustrations and setbacks is essential for future happiness. A parent's role in these situations is to help children find solutions, not provide them. What's more, children need to know that it's all right to be unhappy sometimes; it's part of life.

If we try to eliminate unhappiness, we might be giving the message that it's wrong to feel sad; children need to experience the whole range of human feelings including sadness. However, parents can encourage children to be happy about what's going okay, or what they have, instead of being sad about what's not going okay or what they don't have.

Likewise, conflicts and disagreements are a normal part of life and are important in as much as they allow for the statement of differences and the expression of feelings. However, our behaviour and manner of relating affect those around us profoundly, so, parents need to ensure that differences are reconciled without destroying the differences or the people who hold them. Maybe St Peter's words to his community of believers could be a source of inspiration to us: "And now this word to all of you. You should be like one happy family, full of sympathy towards one another with tender hearts and humble minds." 1 Peter 3: 8.

Most parents can relate to the statement, "Thank heavens, I've got some time to myself!" It is a heavenly feeling not to be at the beck and call of others or on the treadmill of house chores. And why is it a heavenly feeling? Because we have time to be with ourselves to simply do nothing or to do something that is relaxing and pleasing to us personally.

Well, children are no different to adults in this regard. They need to have some scheduled activities, which develop social skills or individual talents. But, like us, they need their own space, their chance to follow their own interests, their time to manage as they choose, their opportunity to build an inner happiness which they will carry on through life.

As parents, we need to keep an eye on the "big picture" of life and set it within a positive and healthy home environment where our children can develop into value- driven, successful and happy people. If they can develop positive attitudes about themselves, their family and their community, they will be less inclined to be lured by the, oftentimes, seductive messages of popular culture. They will want to be successful, happy contributing people.

Their happiness will be our happiness.

**Let us pray:
God, our Father,
we ask that
we and our children
be gifted with a positive inner attitude
of mind and heart
& true happiness.
Amen.**

Explanation of the Year of Mercy Logo and Motto. The logo and the motto together provide a fitting summary of what the Jubilee Year is all about. The motto Merciful Like the Father (taken from the Gospel of Luke, 6:36) serves as an invitation to follow the merciful example of the Father who asks us not to judge or condemn but to forgive and to give love and forgiveness without measure (cfr. Lk 6:37-38).

The logo – the work of Jesuit Father Marko I. Rupnik – presents a small theological summary of the theme of mercy. In fact, it represents an image quite important to the early Church: that of the Son having taken upon his shoulders the lost soul demonstrating that it is the love of Christ that brings to completion the mystery of his incarnation culminating in redemption.

The logo has been designed in such a way so as to express the profound way in which the Good Shepherd touches the flesh of humanity and does so with a love with the power to change one's life. One particular feature worthy of note is that while the Good Shepherd, in his great mercy, takes humanity upon himself, his eyes are merged with those of man. Christ sees with the eyes of Adam, and Adam with the eyes of Christ. Every person discovers in Christ, the new Adam, one's own humanity and the future that lies ahead, contemplating, in his gaze, the love of the Father.

The scene is captured within the so called mandorla (the shape of an almond), a figure quite important in early and medieval iconography, for it calls to mind the two natures of Christ, divine and human. The three concentric ovals, with colours progressively lighter as we move outward, suggest the movement of Christ who carries humanity out of the night of sin and death. Conversely, the depth of the darker colour suggests the impenetrability of the love of the Father who forgives all. (Taken from <http://www.im.va/content/gdm/en/giubileo/logo.html>)

Whilst this explanation is very detailed I am sure you will find something that speaks to you personally within this logo/motto. Over the next two weeks I encourage you to look closely at it and see what it is revealing to you.

The Season of Lent

The season of Lent is a liturgical season consisting of forty days beginning at Ash Wednesday and concluding at sundown on Holy Thursday. The 40 days of Lent, which precedes Easter is based on two Biblical accounts: the 40 years of wilderness wandering by the Israelites and our Lord's 40 days in the wilderness at which point He was tempted by Satan. Lent officially ends on Holy Thursday. That is when the 'Triduum', the great three Days of Holy Thursday, Good Friday and Holy Saturday occur leading to Easter. Easter is not only a day but an Octave (eight day) celebration leading to the, Easter Season, which ends on Pentecost.

Each year the Church observes Lent where we, like Israel and our Lord, are tested. We participate in the three traditional forms of Lenten observance:

- Fasting (self denial)
- Prayer and confession
- Almsgiving (acts of kindness and mercy)

The goal of every Christian is to leave Lent a stronger and more vital person of faith than when we entered. Our Lenten journey it is the opportune time to reflect on our personal preparation for the resurrection of Christ at Easter. We ask ourselves: Are we growing in our relationship with God through regular prayer and works of love? We acknowledge that we are human and make wrong choices, but are comforted by the knowledge that God unconditionally loves us. No matter how busy you are this Lenten Season make time for HIM through your daily encounters with others.

Catholic Schools Week: 6th – 12th March, 2016

From 6-12 March, St Mary MacKillop Primary School will join with more than 620 Catholic schools across NSW and the ACT to celebrate the annual Catholic Schools Week (CSW).

We are immensely proud of our Catholic heritage, and are committed to celebrating and showcasing the achievements of students in our school. This year's theme is 'I belong. You belong. We belong.'

The 2016 CSW theme ties with the Church's celebration of the Extraordinary Jubilee of Mercy, which recognises our Catholic faith values of forgiveness, compassion, strength, aid and love.

Our school is proud of the wonderful teaching and learning that takes place in our classrooms everyday, as well as the contribution our schools have made to Australian communities, in particular the more vulnerable and disadvantaged members of our wider community.

It is for this reason that I would like to extend an invitation to you and your family to join us to participate with members of our parish and wider community in the spirit of this celebration.

CELEBRATING 50 YEARS OF
PROJECT
COMPASSION

First Australian Evangeline lives in a remote community that faces many ongoing challenges. She had a limited vision for her future until three years ago, when she started working at the Djilpin Arts Ghunmarn Culture Centre, a community-owned venture supported by Caritas Australia. Today Evangeline is flourishing, with new skills and a passion for the preservation and promotion of her Aboriginal culture.

Please donate to Project Compassion 2016 and help First Australians in remote communities of Australia gain new skills and renewed passion to preserve and celebrate traditional culture. You can donate through School boxes, by visiting www.caritas.org.au/projectcompassion or phoning 1800 024 413.

Before enrolling in the Mondulkiri Community Health Program, supported by Caritas Australia, young midwife Sreymom lacked the practical experience necessary to safely assist childbirth. Now, with the skills and knowledge gained through the program, Sreymom is a trusted midwife who is helping to improve the health of indigenous women and children in her region.

Please donate to Project Compassion 2016 and help healthcare workers in isolated areas of Cambodia gain vital training to improve the health and wellbeing of the region's indigenous women and children. From the Assistant Principal

How can I help my child with maths at home?

“The home and local environment is rich with opportunities to explore, practise and apply mathematical knowledge and skills. Indeed, the mathematical role models provided for children by parents, family members, friends and neighbours are very important for establishing the idea that mathematics is a useful aspect of everyday activity. Thus, conversations with children that assist them to notice, explore and discuss mathematical activity, and opportunities to be involved in mathematics at home is a key component of building a positive attitude in children towards learning mathematics.” Extract from “Extending Mathematical Understanding Intervention, Ann Gervasoni, 2015)

School Photo Day
